## Desert Life

A variety of plant and animal species inhabit the Sonoran Desert. Each member of the ecosystem depends on each other for survival. Several laws are in place to make sure the Sonoran Desert is protected and continues to thrive. Please leave the desert as you find it. If you would like to add some Arizona flair to your residence with cacti, make sure to purchase them from an established desert garden or cactus nursery.

## Time Zone

Arizona uses Mountain Standard Time (MST) and is one of two states which do not follow Daylight Savings Time. Due to this, Arizona time coincides with Pacific Daylight Time (PDT) during the months of April through October.

## BOUNDARY MAP

## A BRIEF HISTORY OF Tucson

Once a small Spanish presidio, or walled fortress, Tucson has seen many changes since its founding in 1776. Its original population consisted of 2-3 officers, 75 soldiers, and their families, all of whom resided in a 750-foot squared area, surrounded by a 22-inch thick, 12-foot-high iron-reinforced wall. But by 1830, Tucson had spread beyond those walls, becoming a village of the newly independent Mexico.

It wasn't until 1854 that the first U.S. Americans entered the area following the Gadsden purchase, and another decade before a sizeable Anglo population began to emerge.

In 1863, Arizona became an official territory of the United States. A decade later the Southern Pacific Railroad added Tucson as a stop on its railway, growing the population to 8,000. In 1912 Arizona achieved its statehood.

Today Tucson has a population of over one million.

## ABOUT Tucson

### Founded in 1775

60 miles north of Mexico, Tucson has grown into a modern mini metropolis of over a million people, while still preserving its historic culture. With equal parts college town and retirement community, it's one of the most attractive big cities of the Southwest. Tucson is one of the oldest, continuously settled cities in the United States.

### Tucson Visitor Center

811 North Euclid Avenue | Tucson, Arizona 85719 | PHONE 1.800.638.8350 | [www.visittucson.org](http://www.visittucson.org)

Hours: Monday-Friday 9 a.m.-5 p.m., Saturday & Sunday 9 a.m.-4 p.m.

Closed on: New Year's Day, Martin Luther King Day, Easter, Memorial Day, Labor Day, Independence Day, Thanksgiving Day, and Christmas Day.

### Dress

In Tucson, casual is the way to go! Opt for footwear and clothes that can handle anything so you can enjoy any of the incredible outdoor activities Tucson has to offer at a moment's notice. Winters can be a little chilly, and summers scorching hot, so dressing appropriately for the season is a must. In winter, jeans, long pants, long-sleeve blouses, coats, gloves, scarves, jackets, and hats are the norm. Since it may warm up throughout the day, it doesn't hurt to bring an extra T-shirt or pair of shorts to change in to, just in case. In the summer, you can rock sunglasses, swimsuits, jean jackets, and T-shirts – and don't forget that sunscreen.

## School Immunizations

<https://webcms.pima.gov/cms/One.aspx?pagelId=1963>

Before children can attend private or public schools and preschools, parents must show proof of their children's immunizations. Requirements typically include multiple doses of Polio, Dip-theria/Tetanus/Pertusis, and Hepatitis B. Children may be admitted if they have received one dose of required immunizations and if parents provide a schedule for remaining requirements. For specific requirements and exemptions, call the County Health Department 520-724-7770, your school administration office, or your physician. You may also want to inquire about free immunizations available at numerous locations throughout the Tucson area.

# Homestead Exemption

[www.azleg.gov/ars/33/01101.htm](http://www.azleg.gov/ars/33/01101.htm)

33-1101. Homestead exemptions; persons entitled to hold homesteads; equity

A. Any person eighteen years of age or over, married or single, who resides within this state may hold as a homestead exempt from execution and forced sale, not exceeding \$250,000 in value, any one of the following:

1. The person's interest in real property in one compact body on which exists a dwelling house in which the person resides.
2. The person's interest in one condominium or cooperative in which the person resides.
3. A mobile home in which the person resides.
4. A mobile home in which the person resides plus the land on which that mobile home is located.

B. Only one homestead exemption may be held by a married couple or a single person under this section. The value as specified in this section refers to the equity of a single person or married couple. If a married couple lived together in a dwelling house, a condominium or cooperative, a mobile home or a mobile home plus land on which the mobile home is located and are then divorced, the total exemption allowed for that residence to either or both persons shall not exceed \$250,000 in value.

C. The homestead exemption, not exceeding the value provided for in subsection A of this section, automatically attaches to the person's interest in identifiable cash proceeds from the voluntary or involuntary sale of the property. The homestead exemption in identifiable cash proceeds continues for eighteen months after the date of the sale of the property or until the person establishes a new homestead with the proceeds, whichever period is shorter. The homestead exemption does not attach to the person's interest in identifiable cash proceeds from refinancing the homestead property. Only one homestead exemption at a time may be held by a person under this section.

D. For purposes of determining the amount of equity in a homestead property that is sold or for determining whether the property owner is receiving cash back from refinancing the homestead property, the parties may rely on the valuation of the property in the final closing document disclosure that is used for that transaction.

Note: This explanation is a summary of the Arizona homestead property exemption statutes. You should consult with an attorney to determine if this exemption offers you protection in the event of an attachment, execution or forced sale.

# Pets of Arizona

The Pima County leash law states that no dogs (or cats) can run loose unless participating at a kennel club sanctioned event, or dogs are being used for livestock control or hunting. Dogs must be vaccinated for rabies and then licensed annually by the County. Licenses can be purchased at any Animal Control facility or through the mail. Call 520.724.5969 for more information.

Services provided by Pima Animal Control include adoptions, vaccinations, tick dips, licenses and pickup of stray dogs. Spaying and neutering are recommended for all pets!

Don't forget to get new name tags for your pets and update registration information with local licensing offices. If your pet is lost and picked up by Animal Control, it will be held a maximum of only three days if it doesn't have tags, or six days if it has tags, before being destroyed. You are responsible for visiting the Animal Control facilities to look for your lost pet.

To report lost or found pets, call 520.724.7222 or [https://webcms.pima.gov/government/pima\\_animal\\_care\\_center](https://webcms.pima.gov/government/pima_animal_care_center)

The Arizona Humane Society picks up injured and roaming stray animals and will accept strays brought in by non-owners. All strays are transferred to Animal Control. Animals given up by owners may be offered for adoption by the Humane Society, but many are taken to Animal Control.

For more information please visit Humane Society of Southern Arizona. PHONE 520.327.6088 | [www.hssaz.org](http://www.hssaz.org)

## Why Use A Real Estate Professional?

Whether **buying** or **selling** a home, a real estate professional can help you make your transaction a successful one. They are with you every step of the way and can provide guidance on the title and escrow process.

### WHEN BUYING A HOME...

- » Has the most information in one place about what is on the market, including homes listed by other professionals.
- » Can help you find the home best suited to your needs – size, style, features, location, accessibility to schools, transportation, shopping, etc.
- » Can supply information on real estate values, taxes, utility costs, municipal services and facilities.
- » Can suggest simple changes that could make a prospective home more suitable for you and improve its utility and value.
- » Has no emotional ties to a home, can be objective about it and can point out its advantages and disadvantages.
- » Acts as an agent between you and the seller to present offers and counter-offers until an agreement is reached.
- » Is bound by a code of ethics!

### WHEN SELLING A HOME...

- » Is knowledgeable of the market and gives you the quickest exposure to the maximum number of buyers.
- » Qualifies prospects as to their affordable price range and housing needs.
- » Knows current real estate values and can help you set a realistic, competitive price. This skilled professional knows how to market your home effectively.
- » Can figure the net proceeds from your sale, taking into account items such as your outstanding loan balance, closing costs, and possible owner financing.
- » Can tap an even larger market through referrals and marketing techniques.
- » Frees you from the problems associated with showing your home. The real estate professional handles phone inquiries, showings, and negotiations of the contract.
- » Maintains objectivity in presenting offers and counter-offers.
- » Can familiarize you with the closing procedures by explaining them all in advance.
- » Is bound by a code of ethics!

## Understanding “Escrow”

**An escrow is an independent, neutral intermediary that manages the exchange of money for real property.**

Whether you are the buyer, seller, lender, or borrower, you want the comfort of knowing that no funds or property will change hands until all of the instructions in the transaction have been followed and conditions met. The escrow holder, while maintaining the privacy of the consumer, must safeguard the funds and documents while they are in the possession of the escrow holder. When all conditions of the escrow transaction have been met and the parties agree, the escrow holder will disburse funds and record the documents conveying the title.

### ESCROW: HOW DOES IT WORK?

Once the parties to the transaction (buyer/seller/lender and/or borrower) have reached an agreement, the signed contract or purchase agreement, along with the buyer’s earnest money deposit, is submitted to the escrow holder. At that point, an escrow is opened. The escrow holder will now follow the mutual written instructions of the buyer and seller, maintaining a neutral stance to facilitate the successful exchange of money and property between the parties. The escrow holder will also follow the instructions of the lender in meeting their conditions.

### THE DUTIES OF AN ESCROW HOLDER INCLUDE, BUT ARE NOT LIMITED TO:

- The processing and coordination of the flow of documents and funds
- Responding to authorized requests from parties to the transaction
- Ordering the title search which will indicate the record of ownership and status of the subject property
- Coordinate with lender on the preparation of the Closing Disclosure
- Responding to lender’s requirements
- Facilitation of the signing of loan documents
- Preparation of a final statement for each party (often referred to as the Settlement Statement) that shows the costs and charges associated with the transaction
- Closing of the escrow, only when all conditions are met and funds are in place in accordance with instructions

Each method of taking title has certain significant legal and tax consequences; therefore, you are encouraged to obtain advice from an attorney or other qualified professional.

### SIX WEEKS BEFORE:

- Create an inventory sheet of items to move.**
- Research moving options.** You'll need to decide if yours is a do-it-yourself move or if you'll be using a moving company.
- Request moving quotes.** Solicit moving quotes from as many moving companies and movers as possible. There can be a large difference between rates and services within moving companies.
- Discard unnecessary items.** Moving is a great time for ridding yourself of unnecessary items. Have a yard sale or donate unnecessary items to charity.
- Packing materials.** Gather moving boxes and packing materials for your move.
- Contact insurance companies.** (Life, Health, Fire, Auto) You'll need to contact your insurance agent to cancel/transfer your insurance policy. Do not cancel your insurance policy until you have and closed escrow on the sale.
- Seek employer benefits.** If your move is work-related, your employer may provide funding for moving expenses. Your human resources rep should have information on this policy.
- Changing Schools.** If changing schools, contact new school for registration process.

### FOUR WEEKS BEFORE:

- Contact utility companies.** Set utility turnoff date, seek refunds and deposits and notify them of your new address.
- Obtain your medical records.** Contact your doctors, physicians, dentists and other medical specialists who may currently be retaining any of your family's medical records. Obtain these records or make plans for them to be delivered to your new medical facilities.
- Note food inventory levels.** Check your cupboards, refrigerator and freezer to use up as much of your perishable food as possible.
- Service small engines** for your move by extracting gas and oil from the machines. This will reduce the chance to catch fire during your move.
- Protect jewelry and valuables.** Transfer jewelry and valuables to safety deposit box so they can not be lost or stolen during your move.
- Borrowed and rented items.** Return items which you may have borrowed or rented. Collect items borrowed to others.

### ONE WEEK BEFORE:

- Plan your itinerary.** Make plans to spend the entire day at the house or at least until the movers are on their way. Someone will need to be around to make decisions. Make plans for kids and pets to be at the sitters for the day.
- Change of address.** Visit USPS for change of address form.
- Bank accounts.** Notify bank of address change. Make sure to have a money order for paying the moving company if you are transferring or closing accounts.
- Service automobiles.** If automobiles will be driven long distances, you'll want to have them serviced for a trouble-free drive.
- Cancel services.** Notify any remaining service providers (newspapers, lawn services, etc) of your move.
- Start packing.** Begin packing for your new location.
- Travel items.** Set aside items you'll need while traveling and those needed until your new home is established. Make sure these are not packed in the moving truck!
- Scan your furniture.** Check furniture for scratches and dents before so you can compare notes with your mover on moving day.
- Prepare Floor Plan.** Prepare floor plan for your new home. This will help avoid confusion for you and your movers.

### MOVING DAY:

- Review the house.** Once the house is empty, check the entire house (closets, the attic, basement, etc) to ensure no items are left or no home issues exist.
- Sign the bill of lading.** Once you are satisfied with the mover's packing your items into the truck, sign the bill of lading. If possible, accompany your mover while the moving truck is being weighed.
- Double check with your mover.** Make sure your mover has the new address and your contact information should they have any questions during your move.
- Vacate your home.** Make sure utilities are off, doors and windows are locked and notify your real estate agent you've left the property.
